Wheat never looked better than it does now, in this section at least. The fields are standing waving in the sunshine in a munificence that gladdens the heart of the farmer. It is the one thing which is up-to-date in its growth and nothing preventing there will be many a bushel of wheat threshed this summer in this County of Marion. And truly the farmers deserve it for they behind hand with everything else.

We stated some time ago that Whitwell had the ideal place for a cemetery and suggested a Cemetery Association to protect and preserve it. Since that time we have learned from parties interested that some two acres of the Cheek lands were set off for that purpose, but looking to the future, if as much again could be secured and properly fenced and beautified, it would be a credit to the place and a real benefit. To accomplish that end, The News cheerfully offers its assistance.

Mrs. O. W. Chastain showed us Wednesday morning the new Centennial tickets. The price of a single fare to Nashville is \$4.40, but according to Centennial rates you can go to Nashville and then return Nov. 7, when the Exposition closes for \$6.50, or remain there 15 days for \$5.45, or 7 days for \$4.05, and in every instance the admission fee to the Centennial and carfare to and from the grounds to the depot is included gratis. This is almost like giving transportation free and we believe Whitwell will be well represented at the Exposition.

## Circuit Court.

Circuit Court of last week at Jasper finished up its business last Thursday but the general docket was light. The McKnight and Ferguson murder cases for which a great number of our citizens were summoned as witnesses, were continued. The work house force was increased about ten, making 19 now in jail. There were twenty six indictments found by the grand jury. We have heard this jury spoken of very favorably and we wish it to be understood that our friend, Mr. T. N. Graham, was a member. Judge Estill seems to be making a good record for himself.
